

Providing Expert Analysis of Your Security Solutions, Processes & Procedures:

CAF Gap Analysis

Bytes CAF Gap Analysis provides organisations with a security focused gap analysis based on the National Cyber Security Centre Cyber Assessment Framework (NCSC CAF).

The NCSC CAF outlines 14 cyber security & resilience principles, which are recognised to have a material impact on your ability to prevent cyber attacks and to reduce the overall risk associated to your IT infrastructure.

The **Bytes CAF Gap Analysis** provides expert analysis of your security solutions, processes, and procedures to provide tangible recommendations on how best to improve your organisation's security posture.

What To Expect?

The CAF Gap Analysis is delivered through the following stages:

Discovery: We collect and collate information on your current security solutions, processes and procedures.

Analysis: We reference your answers against the 14 principles of the NCSC CAF.

Consultation: We host a session to discuss and clarify the information collected and to gather any additional information needed to create your report.

Outcome: A bespoke and detailed report is produced and will include a high-level score against each of the 14 principles, as well as detailed explanations to justify the score and recommendations for next steps to improve the overall result.
