

Learn how to put next generation Microsoft Security tools to work for you.

Threat Protection Engagement

Bytes provide world class expertise. From security, storage and virtualisation to licensing, digital transformation and managed services. Our breadth of insight & experience has helped hundreds of the worlds best known brands and will do the same for your business. The added value from our passionate, customer focused, service driven people will help you achieve more.

Do you know how many phishing attacks your organisation has received? If employees are using the right password protocol? Whether personal data is being exposed? In short, is your organization's cloud environment as secure as you think it is?

Improve your security posture with a Threat Protection Engagement.

Organisations today are managing a growing volume of data and alerts while dealing with tight budgets and vulnerable legacy systems. Get help achieving your broader security objectives and identify current and real threats by scheduling a Threat Protection Engagement.

We can help you develop a strategic plan customised for your organisation and based on the recommendations of Microsoft experts in security. You'll gain visibility into immediate threats across email, identity, and data, plus clarity and support on how to remediate vulnerabilities and upgrade your security posture for the long term.

Why You Should Attend

- ✓ Identify current, ongoing security threats and discover vulnerabilities in your environment.
- ✓ Walk away with actionable next steps based on your specific needs and objectives.
- ✓ Document your security strategy for the benefit of key stakeholders.
- ✓ Better understand how to accelerate your security journey using the latest Microsoft Security tools.

Who should attend?

The engagement is intended for security decision makers such as:

- Chief Information Security Officer
- Chief Information Officer
- Chief Security Officer
- IT Security Architects
- IT Security Administrators
- IT Security Operations (Sec Ops)

What To Expect?

We'll help you better understand how to prioritise and mitigate potential attacks, with:

Analysis of cybersecurity threats that are found targeting your organisation.

Actionable recommendations to help immediately mitigate the identified threats and discovered vulnerabilities.

Visibility into vulnerabilities to your Microsoft 365 cloud and on premises environments to better understand, prioritise and address vulnerabilities and misconfigurations across your organisation.

Long term recommendations from Microsoft experts about your security strategy, with key initiatives and tactical next steps.
