MIGRATE

Windows 10

WINDOWS 10

ARE YOU THINKING OF MIGRATING TO **WINDOWS 10?**

If so, Bytes can help you:

• Understand what you need to do

• Design your target estate including Operating System, Licensing and Core Applications

• Conduct a Pilot Migration using Microsoft System Center Configuration Manager (SCCM)

• Complete the Full Migration of your entire/partial estate, providing the right tools & skill sets

DO GREAT THINGS

• Windows 10 is familiar and better than ever. With welcome similarities to Windows 7, including the Start menu, your people will feel like experts right away

• New features like **Continuum** and **Microsoft Edge** provide new, innovative productivity experiences, only available on Windows 10

• Introduction of entirely new ways to protect your systems, with **Windows Hello** and **Microsoft Passport**, it's easier to adopt biometrics and multi-factor authentication. Providing a user-friendly way to move away from passwords once and for all

• Delivering management flexibility, **Current Branch for Business** deployment schedule and **Windows Update for Business** service help reduce management costs, provide controls over update deployment and offer quicker access to security updates from Microsoft on an ongoing basis

Our 5 step approach to supporting your Windows 10 migration

DISCOVER:

Understand the current OS profile, applications deployed and licenses available.

ASSESS:

Assess eligibility to upgrade current OS to Windows 10, the compatibility of applications across the estate to run on Windows 10 or the remediation activity required, and the compatibility of the IT asset to support Windows 10.

TARGET:

Design of the target estate and platform ("SCCM") to support the migration to Windows 10.

MIGRATE:

Implementation of production ready SCCM primary site and deployment of Windows 10 to a pilot set (up to 10) of devices incorporating Microsoft Office.

MONITOR:

Bytes will leave you with a set of reports within SCCM so that on a scheduled or ad hoc basis you can monitor the progress of your migration project.

Windows 10

ENSURING MIGRATION SUCCESS

	STAGE 1 — 10 days		STAGE 2 — 10 days	
	REVIEW		REVIEW	
	DISCOVER	**ASSESS**	**TARGET**	**MIGRATE (Pilot)**	**MONITOR**
LICENSES	Volume Licenses / OEM Licenses	Upgrade Eligibility	Target Licensing Options	License Procurement	
APPLICATIONS	Application Profile / User profile	Win 10 Compatibility / Application Strategy	Target Applications	Office Migration	
OS	OS Profile		Migration Plan	Win 10 Migration	
DEVICES	Device Profile	Win 10 Compatibility / Device Strategy	Migration Plan	Upgrade/Replace	
TOOL	SCCM or MAP		SCCM HLD	SCCM Pilot	Inventory Analysis

SIMPLE PRICING, CLEAR DELIVERABLES

The cost for Stage 1 + Stage 2 is £10,000 with the following deliverables:-

1. Windows 10 application compatibility assessment* for all desktop applications.
2. Licensing strategy to support your Windows 10 environment.
3. Application strategy and remediation plan for your desktop applications.
4. Design and implementation of SCCM to support full OS and application deployment.
5. Creation of device independent OS image to support two target device makes/models.
6. Creation of Office 2013 and/or Office 365 application package.

* Note: License fee will be required for more than 10 applications
