Bytes and Microsoft
PREPARING FOR THE GDPR

The General Data Protection Regulation (GDPR) imposes new rules on organisations that offer goods and services to people in the European Union (EU), or that collect and analyse data tied to EU residents, no matter where they are located.

Enhanced personal privacy rights

Increased duty for protecting data

Mandatory breach reporting

Significant penalties for non-compliance

Bytes and Microsoft want to help you focus on your core business while efficiently preparing for the GDPR. Our aim is to streamline your compliance with the GDPR through technology, innovation and expert advice.

What are the key changes with the GDPR?

Personal privacy

Individuals have the right to:

> Access their personal data
> Correct errors in their personal data
> Erase their personal data
> Object to processing of their personal data
> Export personal data

Controls & notifications

> Strict security requirements
> Breach notification obligation
> Appropriate consents for data processing
> Confidentiality
> Recordkeeping

Transparent policies

Transparent and easily accessible policies regarding:

> Notice of data collection
> Notice of processing
> Processing details
> Data retention/deletion

IT & training

Need to invest in:

> Privacy personnel and employee training
> Data policies
> Data Protection Officer (for larger organizations)
> Processor/Vendor contract

Preparing for the GDPR - Your Risk Register

GDPR Impact Assessment

Educate → **Discover** → **Plan** → **Maintain** → **2018 GDPR READY**

PREPARING FOR THE GDPR

Microsoft

We can help you meet the GDPR requirements and show you how existing enterprise products and services can jumpstart your compliance journey today.
