

Introducing CloudFlex, from Bytes, the most secure and flexible Microsoft365 solution.

 **Office 365**
We have already helped over
1,500,000
business users move to Office 365

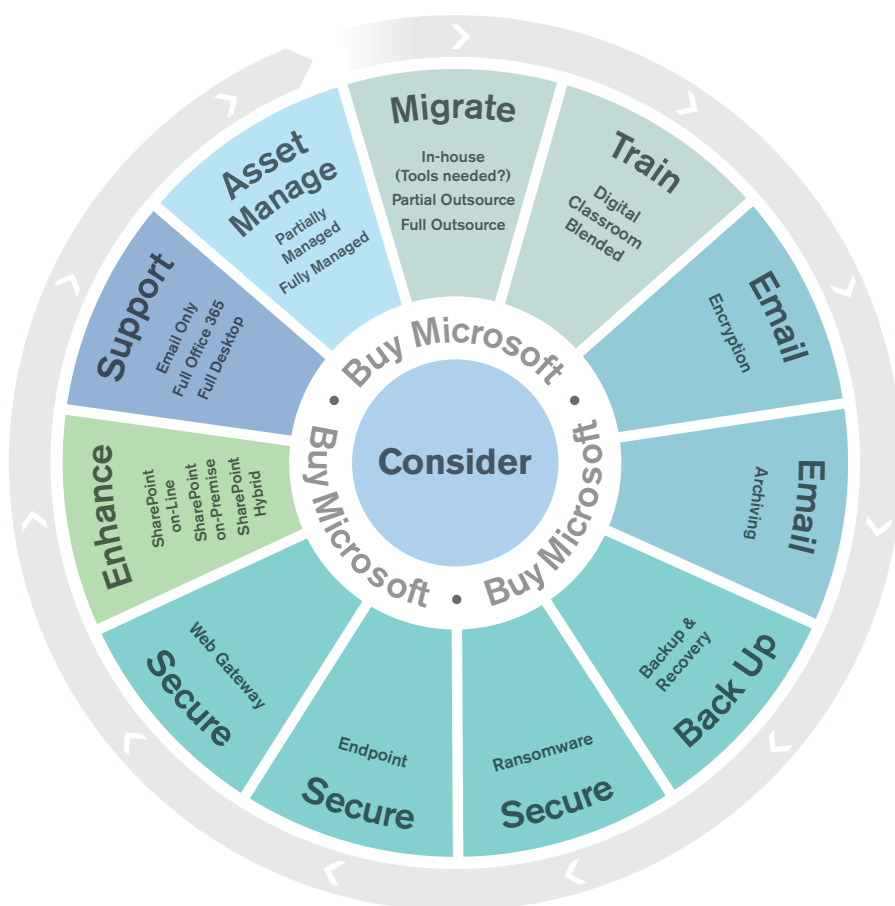

We're now in our
35th
trading year

We are the
No.1
Microsoft Office 365
Cloud Partner

What is CloudFlex

CloudFlex is the most flexible and secure Microsoft365 solution and provides organisations with a range of complimentary solutions under a flexible operating model.

Gartner state that by 2018, 40% of Office 365 environments will rely on third-party tools to provide the required level of security, and by 2020 this number will increase to 50%.

Wherever you are on your journey to the Microsoft Cloud, Bytes can help.

BYTES
SOFTWARE SERVICES

How to buy it

By working with Bytes you can flex and manage ALL of your cloud software on a MONTHLY basis, enabling you to scale your IT environment as your needs change.

How to **MOVE** your software purchases to a monthly billing arrangement with Bytes

Step 1:

Select which software vendor or vendors you would like to initially move on to a monthly billing arrangement

Step 2:

Let Bytes update your selected vendors and place the relevant orders on them

Step 3:

Start paying for your software monthly

Step 4:

Reap the benefits of paying for your software monthly

How to **ADD** additional software vendors

Step 1:

Notify Bytes which vendors you would like to add

Step 2:

Let Bytes update your selected vendors and place the relevant orders on them

Step 3:

Start paying for your additional software monthly

Step 4:

Continue to reap the benefits of paying for your software monthly

How to **FLEX** your Arrangement

You can add, re-assign or delete/true-down (Microsoft only) users anytime you like. Simply:

Step 1:

Notify Bytes of the changes you need to make

Step 2:

Let Bytes update your selected vendors and place the relevant orders on them

Step 3:

Look out for your automatically-adjusted monthly statement

Step 4:

Continue to reap the benefits of paying for your software monthly
