

# Bytes CITRIX ON MICROSOFT AZURE

**Move your Citrix infrastructure to the Cloud on Microsoft Azure** - and change the face of IT delivery and management. Suddenly, you're in control like never before.

Now your team can design and deploy essential solutions swiftly using Citrix tools — in the cloud or as a hybrid deployment. It's simple for you and your users to get the best from Windows 10, Office 365, Skype for Business, file-sharing, mobility and the latest apps.

**We'll customise Citrix and Azure to meet your precise needs**

## Reduce cost and increase efficiency

- Use Citrix XenDesktop Essentials to provision apps and desktops on Microsoft Azure
- Offer **file synchronisation and sharing** with Citrix ShareFile and add Citrix NetScaler to increase the efficiency of your cloud network
- Structure **Windows 10 roll-outs** with Citrix XenDesktop Essentials, using test groups, departments and apps in order or together

## Enable secure, mobile cloud productivity

- **Collaborate and communicate** using the full capabilities of Office 365 and Skype for Business, while getting protection from Citrix XenApp Essentials and XenDesktop Essentials
- Co-author and edit documents using **Citrix ShareFile** with full file tracking and encryption

## Accelerate migration

- Deliver **immediate access** to core business applications on Windows 10 devices
- **Reduce the cost** and complexity of application upgrades, migrations and updates by up to 90%, thanks to XenDesktop Essentials with Citrix AppDNA
- Support Windows 7 and Windows 10 while **employees transition** at your pace

## Embrace digital workspaces and enterprise mobility

- Combine the full Citrix suite to deliver an **outstanding user experience** with expanded mobility (virtual, native, web, SaaS and cloud apps)
- Benefit from the Azure **global network** of datacentres

## Our expert team stand ready to help

As the largest Microsoft cloud UK provider, Bytes know how to deliver your digital workspace with Citrix. Our EUC specialists and dedicated Cloud Architects can meet your exact needs.
