BYTES

A single viewpoint from which to secure your cloud

Cloud Security Snapshot

This service offers you **Check Point**'s award-winning Cloud Guard Posture Management cloud compliance solution for 30 days, at no cost, so you can detect and plug your cloud security and compliance gaps.

Bytes set up your trial Cloud Security Posture Management account. Within 15 minutes, your cloud platforms are connected.

You start to see results within an hour. Gain a clear, detailed and complete map of your overall public cloud health.

Continuous audit and assessment is vital to avoid cloud misconfigurations, compromises and breaches.

Trial lasts 30 days at no cost or obligation.

CHECK POINT™

Service Benefits

Onboarding of multiple cloud platform accounts.

An overview of any security issues that are identified by the platform.

The ability to run a continuous compliance rule set on each account.

Remediation steps against best practice.

The Result
A true picture of your cloud assets & compliance across multiple public clouds.

Cloud Assets Configuration
Identify which applications and workloads you have running on the cloud.

Public Exposure Levels
Understand the applications & workloads that are public-facing & more vulnerable to threats.

Network Topology
Review your network layout & understand areas prone to threat exposure.

Security Groups
Discover and classify your security groups by varying exposure levels.

Traffic & User Activity
Review how applications and workloads interact & the traffic associated.

Bytes free Cloud Security Snapshot provides complete visibility of your public cloud assets and their compliance across Amazon Web Services (AWS), Microsoft Azure, Google Cloud Platform, or, all three combined.

A clear, detailed, and complete security map of your cloud architecture – with results within an hour – at no cost.
