Bytes
LEARNING SERVICES
Let us source the right course to achieve your objectives

If your key people take time out for training, then it's vital that every session delivers a payback for your organisation. We'll make sure it happens. We independently source thousands of premier-grade courses in software learning, management and personal development – so you gain more from your investment across all major software vendors.

Bytes can help by:

☑ **Sourcing the best courses within the market** – impartially and independently to meet your objectives

☑ **Saving you time and money** - via our extensive relationships and superior buying power

☑ **Catering for all of your training requirements and budgets with the utmost professionalism**

Bytes training figures

5329 Public courses

60,093 Public/Self-Study training days

452 Microsoft Software Assurance customers

22,070 training days

200 Invoice customers

1824 Onsite training days

If your staff would benefit from courses that deliver knowledge with clarity, attention to detail and a high level of expertise, then talk to us.

Our learning services division has been established since the mid-'90s, working alongside HR, sales and operations teams to help you train your workforce at the right price. Operating both in the UK and Globally, we source a wide number of software training and personal development courses from a huge bank of tried and tested training providers, software vendors and partners.

5 reasons to choose Bytes

Expertise
We'll source the right training courses for your professionals, thanks to over 20 years' experience

Choice
We're independent and offer easy access to the widest range of training – on-site, off-site and eLearning

Value
Our purchasing power and vendor relations means competitive pricing, so your training budget goes further

Convenience
We provide a secure, hosted online booking system and flexible ways to pay for easier budgeting

Service
We offer outstanding customer care – for you

Bytes
LEARNING SERVICES

Whether project-based, continual or ad-hoc learning, we have a wealth of experience and invaluable resources to help your staff reach their full potential.

Bespoke Training

We can provide tailored on-site and off-site training solutions, with any number of vendor or technology variables. As well as our full software training courses, we also offer help on software migrations, upgrades and any new software features. Just let us know what you are looking for and we will endeavour to provide you with the right course to fit your needs.

eLearning

Training online is the most flexible cost-effective and practical learning method. We can offer courses either standalone or as an integrated training solution through our tried and tested partner, Arc IT Training.

Software Assurance Training Programme

Are you getting the maximum value of your Microsoft Software Assurance training vouchers? Bytes can double your Microsoft training vouchers under our 2-4-1 offering, sourcing training with a number of Microsoft training certified partners. We can help with obtaining the correct authorisation process to avoid misuse of your training vouchers.

Training Budget Services

To help you get the most out of your training budgets, our courses can be tailored to suit a variety of budgets and payment methods. We offer discounts on prepayment and price freezing, along with prepayment budget management options.

The Rebrandable Bytes Portal

Another unique resource available to Bytes customers is the Bytes Portal, a simple-to-use online system that makes the training process smoother and more efficient. You can manage your payments, book courses, receive post-course support and keep track of all scheduled training programmes.

The Portal interface can be branded to your specifications and placed on your intranet for self-administration with full sign-off mechanisms.
