

# **BETTER TOGETHER**

**INTEGRATE GOTO WITH MICROSOFT TEAMS TO  
SUPERCHARGE YOUR ONLINE COLLABORATION  
AND COMMUNICATION**

# **BETTER TOGETHER:** **TAKE REMOTE COLLABORATION TO THE NEXT LEVEL**

When you integrate GoTo with Microsoft Teams, you create the ultimate online communication tool for your business.

Mutually developed by Microsoft and GoTo, the integration unites capabilities and tools that complement each other.

GoTo's cloud-telephony, high-quality audio and video conferencing empowers simple collaboration with anyone, from anywhere. When combined with the trusted email, chat and messaging services of Microsoft Teams, a best-in-class platform emerges for secure, reliable, and engaging communication and collaboration.

Microsoft Teams's user-friendly instant messaging, chat and file sharing is perfect for team meetings and communications within your organisation. For conversations that extend outside your company – whether with customers, partners, suppliers or investors – GoTo's professional collaboration tools are easy to use from any device or time zone. Hold secure remote meetings, video conferences, webinars and audio calls that are essential for building relationships and growing your business.

“

*Plugging GoTo into Microsoft Teams adds firepower and greater performance to your current collaboration model. It measurably improves the collaborative experience, which is more important than ever given the recent growth in remote working.”*

**Keith Bartlett**

Director UCC, EMEA at LogMeIn

## WHY INTEGRATE GOTO WITH MICROSOFT TEAMS?

---

### 1. MORE FOR YOUR MONEY

Maximise the value of your investment in Microsoft Teams. When you integrate GoTo with Microsoft Teams you get powerful external collaboration capabilities for one simple, all-inclusive price. That means video conferencing, virtual webinar tools, audio calls to landlines, mobiles and international numbers - all at a fraction of the cost.

---

### 2. PERFORMANCE YOU CAN RELY ON

As the professional's collaboration tool of choice, GoTo technology offers exceptional audio and video quality, combined with 99.995% uptime. That means you can rely on our technology when you need it most. GoTo hosts more than 25 million users worldwide each month and more than 100 million meetings per year, with fast join times. Crucially, GoTo platforms require less bandwidth than Microsoft Teams, minimizing potential connection problems as more people work remotely with varying broadband capacity.

---

### 3. PREMIUM SUPPORT AS STANDARD

Knowledgeable, in-house customer service agents are available around the globe with multi-lingual support and free international calls to over 50 countries anytime. (Winner of Frost & Sullivan's North American Service & Support Award)

## **GOTO:** **COLLABORATION ON YOUR TERMS**

Discover the GoTo suite of cloud-based products available for easy integration with Microsoft Teams:

Unified, cloud-based phone and meeting solution that lets your organization communicate from anywhere on any device. Integrate your phone systems, map call flows visually and use the Support Center to enhance the efficiency and performance of your teams.

Combining hardware and software components in single package for a complete conference room solution. Everything you need to manage multiple meeting rooms (from one to 1,000 or more), with high-quality video connections for a best-in-class conference experience.

Videoconferencing and meetings for up to 250 people in any location and high-definition voice & video feeds per session. Commuter mode offers a high-quality meeting experience on the go, from any mobile device.

Complete virtual webinar solution, making one-to-many communications and training easy and interactive. The cloud-based software offers superior audio and crystal-clear video, combined with flexible webinar modes, interactive features, insightful analytics and source tracking.

## **A TRUSTED SUITE OF SECURE PRODUCTS THAT WON'T LET YOU DOWN**

GoTo by LogMeIn powers remote communication and collaboration for tens of millions of users around the world through the day-to-day and the unexpected. With everything from video conferencing to webinars to telephony to conference rooms solutions, the GoTo suite enables your employees to provide a professional communication experience no matter where they are.

*At GoTo, we understand our role in the wider ecosystem of collaboration tools. If you're serious about remote external communication, GoTo is the 'must-have' tool to integrate with Microsoft Teams."*

**Joseph Walsh**  
Principal Product Marketing Manager, GoTo

“

*If you're looking for an easy way to expand your connections with external contractors, and collaborate more creatively with internal teams, GoToMeeting may be a great choice. Features like Call Me to join meeting options, toll-free numbers, and virtual whiteboards make GoToMeeting a unique collaboration tool."*

**Rebekah Carter**

UC Today, April 2020
