

# Secure Remote Work from Anywhere Workshop

A two-day engagement designed to introduce the value of Microsoft 365 to your organisation. Envision agile work scenarios and discover how to enable your employees to be productive and secure with Microsoft 365.

## Workshop includes

- ✓ Understanding your business objectives and envisioning priority scenarios to enable secure work from anywhere
- ✓ Developing a plan to implement secure remote and agile work scenarios, including Microsoft Teams, secure mobile access, and foundational identity and security
- ✓ Defining activation plans, and risks and mitigations for a successful deployment and adoption

Cost: £2,750

## Workshop outcomes

- ✓ Prioritised secure work from anywhere scenarios and identify Microsoft 365 opportunities
- ✓ Actionable plan to quickly move to a secure work from anywhere environment
- ✓ Environmental assessment of current state
- ✓ Identify potential blockers and challenges
