Copilot Vision & Value

The Copilot Vision & Value is a three-phase engagement designed to help custom reinvention, identify top functional scenarios, build a business case and develop a strategic implementation roadmap for AI transformation powered by Microsoft Copilot.

Learn more

Copilot Studio Vision & Value

A three-phase engagement that provides an overview of the Art of the Possible, an overview of key concepts, and building next-Generation AI capabilities using Microsoft Copilot Studio.

Learn more

Copilot Deployment & Adoption Accelerator

The Copilot Deployment & Adoption Accelerator is a program to rapidly assist customers with deploying and realising value from an initial purchase of Microsoft Copilot licenses. The engagement consists of four stages.

Learn more

Copilot Proof of Value

A guided evaluation experience to rapidly assist customers with deploying and realising value from an initial purchase of Copilot for M365 licenses. We'll showcase the business value of AI, activate a champions community, achieve high user-adoption of Copilot, and build an AI transformation roadmap.

Learn more

Copilot Readiness Assessment

Bytes' Copilot for Microsoft 365 Readiness Assessment is designed to facilitate the adoption of Copilot for Microsoft 365 by providing you with an overall Copilot readiness score based on your organisation's current security posture, user licensing and usage of Microsoft applications. We'll calculate your readiness based on three metrics: security, licensing, and optimisation. During the assessment we'll produce a 360-degree view of your environment and provide a valuable action plan.
