

# Scale AI with confidence.

## Introductory Annual Savings on Microsoft's Most Complete AI-Ready Security Bundle

As your trusted Microsoft partner, we help you move from foundational security to AI-ready operation, without disruption or unnecessary cost.

With Microsoft 365 E7 (ME7), you can extend your existing environment and safely scale Copilot and agents, while taking advantage of partner-packaged annual savings designed to lower the barrier to entry.

## Flexible Annual Savings. Packaged for You.

As part of our ME7 offering, eligible customers can receive partner-provided annual savings, including:

- ✓ **10%**  
off ME7 for 10+ seats
- ✓ **15%**  
off ME7 for 100+ seats

Savings are packaged and delivered through your partner as part of a complete solution, tailored to your business needs.

### ME7 Frontier Suite

 Microsoft 365

#### Microsoft 365 E5

The security and compliance foundation for enterprise-grade productivity

#### Microsoft Entra Suite

Identity, access, and policy enforcement for autonomous systems

#### Microsoft 365 Copilot

AI embedded across the flow of work

#### Microsoft Agent 365

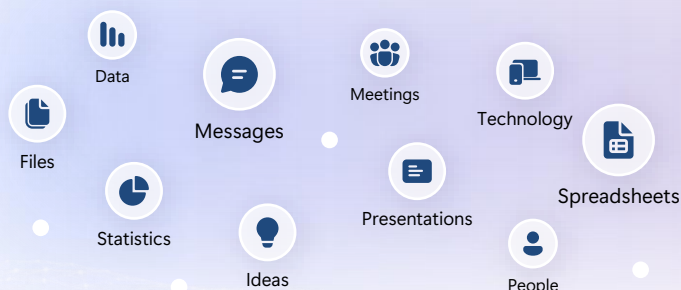

Discovery, governance, and lifecycle management for AI agents

## Lower the Barrier to Frontier-Scale AI

ME7 removes common blockers to AI adoption:

- ✓ Unified security foundation that replaces fragmented tools with one integrated platform
- ✓ Built-in governance and compliance to operate AI responsibly across data, users, and workflows
- ✓ Clear oversight of Copilot and agents, with policy, permissions, and monitoring from day one
- ✓ Predictable, optimised costs as AI usage, and autonomous agent activity scales across the organisation

You empower your AI agents with the knowledge and context of your business

And you extend your enterprise controls from users to Agents

With ME7, AI and agents don't just exist, they operate securely, governed, and ready for scale.

**Start small. Scale AI when you're ready.**

**Bytes are here to help shape your AI strategy.**
