

Microsoft AI Jumpstart

Organisational enablement & licensing

An accelerated programme helping organisations achieve a secure, impactful AI adoption.

As your organisation explores the benefits of AI, ensuring data security, compliance, and a strong foundation is critical. The Bytes Microsoft AI Jumpstart programme is designed to help you adopt AI confidently, with a clear focus on security, licensing, and tangible business outcomes.

How can we help?

Our Microsoft AI Jumpstart programme combines expert consultancy with tailored licensing solutions, enabling your business to complete a proof of concept on Microsoft Purview and Microsoft 365 Copilot at a truly competitive price tag.

Who is the engagement designed for?

AI Jumpstart is designed with end-users in mind, and is ideal for:

- Sales & marketing
- Human resources
- Legal & compliance
- IT & operations

Our aim is to help all departments maximise their investment in Microsoft technology by streamlining AI adoption in a way that aligns with your strategic goals.

Overcome fears and concerns around AI and data security

Ensure a secure and compliant environment

Build a resilient, efficient and competitive organisation

What to expect from the engagement

Our experienced consultants will work with your team to assess your current setup, understand your objectives, and develop a tailored roadmap for success.

Our AI Jumpstart is available in **flexible bundles to suit different sized teams**. All packages include annualised Microsoft 365 Copilot and Purview licenses (via CSP), plus expert-led service delivery days.

We also provide a combination of the [Copilot Vision and Value Workshop](#) and [Microsoft Data Security Engagement](#) to help align AI use with your organisational needs and compliance standards.

Microsoft AI Jumpstart

Organisational enablement & licensing

AI Jumpstart bundles

Offer size	License bundle	Professional service days	Recommended RRP £	Bytes offer price £
X-Small	10 Licenses	7 days	£15,000.00	£10,000.00
Small	25 Licenses	7 days	£20,500.00	£14,500.00

X-Large	100 Licenses	17 days	£65,500.00	£47,500.00

Funding support available

Eligible customers may access **funding of up to £19,000** to offset deployment and consultancy costs, helping reduce your total investment even further.

Agent add-on service

Enhance your AI implementation with our Microsoft Copilot Agent add-on. This service includes:

- Use-case identification
- Custom agent creation
- Best practice implementation

All at a fixed, transparent price.

Why Bytes?

Bytes are one of few partners to have attained all six designations in the Microsoft AI Cloud Partner Program, meaning we're considered a Solutions Partner for Microsoft Cloud. We're also one of only twenty Microsoft Copilot Jumpstart Partners, the number one CSP Copilot Partner, and the number one Copilot Partner in SMB in the UK. This makes us uniquely positioned to support both public and private sectors with their AI and security needs.

If you're interested in the AI Jumpstart offer or Agent add-on, contact your account manager to determine eligibility and to discuss full terms and conditions.
