

# Bytes PREPARING FOR THE **GDPR**

...25  
MAY  
2018

## NEED TRAINING?

Bytes Learning Services provide a number of onsite or online courses for DPOs, senior managers or team members to ensure your compliance. Contact [training@bytes.co.uk](mailto:training@bytes.co.uk) for more information.

Meet the May 2018 deadline with ease in a way that's stress-free, affordable and minimises the disruption to your business

## GDPR - What's new at a glance

### Privacy By Design & By Default

Introducing the appropriate technical and organisational measures to keep your data safe

### Right to Erasure & Be Forgotten

Be prepared for the new data subject right to have data deleted

### Timely Breach Notification

Both data controllers and data processors have an obligation to report a data breach

### Data Protection Impact Assessment

Understand your business exposure and risk of penalty

**Our GDPR Essentials service** will set you on the right path to compliance, minimising cost and disruption.

## GDPR Essentials

**On-the-ground help** from Bytes' own GDPR experts, tailored for your organisation and its unique challenges

**Expert advice** to identify GDPR gaps and risks, supported by a wealth of resources

**Workshops to build awareness** and secure buy-in from your key internal stakeholders and process owners

**Action plans** to ensure you can prepare for and maintain GDPR compliance - in a timely and effective way

# PREPARING FOR THE GDPR

## GDPR - Compliance Checklist

### 1. Gain Awareness

Analyse the broad implications of GDPR for your organisation.

### 5. Consent

Identify all areas of the business where consent is required.

### 2. Secure Buy-In

Ensure the understanding that GDPR is a business owned initiative.

### 6. Think Smart

Develop a plan and timeline to get compliant.

### 3. Get Personal

Identify the personal data you store or process.

### 7. Take Action

Ensure you have the right tools, procedures and processes in place.

### 4. Follow the Data

Identify and mitigate your risks to your Cloud Service Providers.

### 8. Stay Compliant

Ensure you have an Information Governance strategy to maintain compliance.

## Bytes recommended solutions to meet the GDPR:

### Veritas Data Discovery

Identify and know where your data is to achieve compliance, and manage your data using a central solution whilst minimising risk, expense and complexity.

### Sophos Encryption

Encryption plays a vital role in the GDPR - with appropriate security controls, exceptions are offered, providing the possibility of avoiding the need for breach notification.

### Symantec Data Loss Prevention

Prevent the sharing of protected or business critical information outside of the company network, whether this is intentional or not.

### Centrify Identity and Access Control

Centrify Identity Platform provides protection against compromised credentials - the number one point of attack used in data breaches - by securing the safety of it's internal and external users.

### Email Security with Mimecast

91% of cyber attacks begin with a phishing email. Discover how Mimecast can help ward against impersonation attacks, weaponized attachments, and malicious URLs.

### VMware Network Security

Network security involves implementing policies and procedures to protect a network - preventing hackers, viruses and malware from obtaining access to private and important files
