# K8s Cost optimisation & Automation Platform

Save 50% or more on your cloud spend

Comprehensive K8s automation
Automatically optimise clusters, improving performance and reliability and boosting DevOps and engineering productivity.

Cost monitoring and visibility
Reduce your cloud expenses immediately with the automated cost optimisation and monitoring platform for Kubernetes and containers.

Fast & supported onboarding
Our average POC takes less than 1 week. Predictable CloudOps and FinOps.

Predictable CloudOps and FinOps
Easily manage a secure, cost-efficient, and scalable infrastructure spanning multiple clouds and regions.

Cloud Partners

aws

50% That's how much clients save on average

5 mins That's how long it takes

3X Companies typically spend 3 times more on the public cloud than they should

A simple journey to optimised cloud infrastructure

1. Analyse
Connect your cluster, detect and analyse all workloads, and get a report showing your current and optimised infrastructure.

2. Get Optimised
Optimise your clusters automatically, with zero impact on your application's availability and performance.

3. Stay optimised
Our tool will monitor, analyse, and optimise your cluster 24/7 to ensure ongoing operations and cost predictability.

About Bytes

Bytes is a leading provider of world class IT solutions. Our portfolio of services include cloud, security, end-user computing and data management. We work with SME's, corporates, and public sector organisations to modernise and digitally transform their IT infrastructures.

Since being established in 1982, Bytes has grown rapidly and now employs over 550 people in the UK and Ireland. Thanks to our passionate people and close partnerships, we've helped hundreds of top brands to transform, grow and adapt to the changing technology landscape.

You can count on us to deliver. Every time.
