

Advanced Security, Simplified.

Microsoft 365 E5 for Security

Microsoft 365 E5 provides your organisation with the most advanced security and compliance features, ensuring your business is protected from threats and remains compliant with industry regulations.

Microsoft 365 E5 combines best-in-class productivity apps with advanced security, compliance, voice, and analytics capabilities. It extends identity and threat protection with integrated and automated security to help stop damaging attacks. By bringing together information protection and advanced compliance capabilities, you can protect and govern data while reducing risk.

With Microsoft 365 E5, you are ready to defend

- Manage & protect up to five devices per user with Microsoft's best enterprise grade protection that includes EDR and XDR.
- Leverage AI with confidence. Microsoft 365 E5 provides the visibility to how sensitive company information is shared and the control to make sure it doesn't leak or getting into the wrong hands.
- Bring together information protection and advanced compliance capabilities to protect and govern data while reducing risk.
- Extend identity and threat protection included in Microsoft 365 E3 with integrated and automated security to help stop damaging cyberattacks.

Key Benefits

- ✓ **Zero Trust employee access**
Expand consistent access controls for employees to any resource, from anywhere.
- ✓ **Endpoint protection and management**
Protect and manage all endpoints, everywhere.
- ✓ **Data security and compliance**
Secure and govern data across your data estate and get ready for Copilot.
- ✓ **Unified security operations**
Automatically disrupt cyberattacks and accelerate response with XDR that unifies security operations.
