

# Manage your cloud with confidence and predictability

A unified platform that provides **peace of mind, governance, automation, efficiency and control** of multi-cloud environments

**Bytes AWS have exclusive access to provide fully funded assessments for customers with 50+ servers in scope to migrate to AWS.** Following the assessment, our architects will be in a position to advise on potential costs within AWS and the procurement options available to make savings. We will also be able to estimate total funding from AWS for the migration of the project – which in some cases can cover the migration costs.

**The Clouddamize Platform supports the entire cloud journey** - from initial cloud assessment and migration through ongoing optimisation and management, whether you're operating in a single or multi-cloud environment.

**Deliver predictable outcomes**

## Plan

Move applications with visibility into both apps and infrastructure.

Accurate dependency management planning drives accelerated timescales and lower migration costs.

**Accelerate cloud adoption**

## Build

Simplify the creation of cloud-native applications and infrastructure.

Enable quicker time to implementation via your managed library of turnkey, one-click deployable solutions.

**Achieve ongoing cost clarity & control**

## Manage

Optimise application costs for up to 90% reduction in cloud spend.

Right-size over-provisioned infrastructure and underutilised resources, providing financial governance and clarity.

Manage your cloud with  
confidence and predictability

Powered by  
**Clouddamize**

**The Clouddamize Platform** delivers holistic value across the entire cloud journey.

Accelerate cloud  
adoption & migration

**Get to the cloud faster.**

Powerful automation improves the ease, speed, and accuracy of moving to the cloud, so you can accelerate cloud adoption and migration.

Achieve cost  
clarity & control

**Control spend and achieve  
cost-performance  
optimisation.**

Gain insight into applications' cloud spend and automate control over cloud costs to ensure you always have the optimised cloud.

Make data-driven decisions  
with ease and confidence

**Know you're making the  
best decisions for your  
business.**

In-depth, high-precision analytics simplify the cloud and bring you peace of mind that you're making the best, most accurate decisions throughout the entire cloud journey.

**High Precision**

Performance, compute, storage, and budget insights from over 150 metrics, 25 million cloud configurations, and 1 billion data points.

**Automated**

Automated cost management reporting and application-level optimisation via the Clouddamize Platform.

**App-Centric**

App-centric optimisation to meet predefined performance and budget goals.

**Multi-Cloud Support**

World-class platform providing support and training for all premier cloud service providers and customer requirements.
