Data Strategy Velocity Workshop

A one-day workshop to help organisations review their approach to data strategy, including how data is used, managed and stored. If your organisation is looking to start making use of the cloud then this session will allow you to identify potential quick wins and options for migration.

Focused on your business objectives, the principal aim of the workshop is to provide you with options around the challenges that you are facing today. As part of the workshop, you will learn the possible solutions and approaches to the business pains that you have identified.

Data Strategy Workshop includes

- ✓ Agenda customised to meet your needs
- ✓ Summary of your current situation including challenges
- ✓ Discussion & white boarding on the current situation & challenges
- ✓ Suggestions for possible options to address challenges
- ✓ Identification & selection of a possible workload that can be used as a Proof of Concept
- ✓ Agreement of the session output and next steps

Benefits you if you:

- ✓ Have separate data silos
- ✓ Have numerous database servers
- ✓ Want to improve access to data
- ✓ Want to understand how the cloud can help you
- ✓ Are looking to start your journey to the cloud
