Microsoft

Bytes **Microsoft Sentinel Services**

Bytes can support you with your end-to-end journey to Microsoft Sentinel, including Planning, Adoption, Implementation, Configuration, ongoing management and more.

Planning & Activation

Bytes will provide you with an overview of Microsoft Sentinel, along with insights on active threats to your Microsoft 365 cloud and on-premises environments with a Microsoft Sentinel Engagement.

Some of the things we can cover:

✔ **Planning**
- Analyse requirements and priorities
- Define Scope
- Review existing environment and proposed architecture

✔ **Activation**
- POC activities
- Deploy Microsoft Sentinel
- Explore capabilities of Sentinel
- Recommended roadmap of next steps

Health Check & Knowledge Transfer

Bytes has an array of capabilities from checking existing configurations to providing sessions on Sentinel that will provide key knowledge to empower security teams.

Engagements can be tailored and scoped to meet your specific requirements.

Some of the things we can cover:

✔ **Sentinel Health Check**
- Investigating Sentinel objects, such as: Data Connectors, Analytical Rules, Workbooks & Playbooks

✔ **Knowledge Transfer**
- Exploring Sentinel Capabilities
- Understanding and Managing Costs
- Exploring SOC based activities and processes associated with Sentinel

Adoption & Migration

Bytes has capabilities in and around migrating legacy SIEM solutions to Sentinel. This results in lower costs, reduced risk and enhanced response capabilities.

Some of the areas in which we can help are:

- ✔ **Proven methodology and best practices**
- ✔ **Gain new skills with technical training**
- ✔ **Migration Planning & Support**
- ✔ **In-depth assistance to configure Microsoft Sentinel**
- ✔ **Support with SOC Transformation & Process Reviews**
- ✔ **Provide Knowledge Transfer on Microsoft Sentinel**

Managed Sentinel

Get the most out of Microsoft Sentinel a Managed SOC Service. Microsoft Sentinel's SIEM tool, together with a Managed Service wrapper provides the people and process element to ensure that value is derived from Sentinel and that you have the desired response capabilities.

Benefits include:

- ✔ **24/7 detection & response**
- ✔ **Identifying threats**
- ✔ **Responding to security incidents**
- ✔ **Identifying malicious patterns**
- ✔ **Regular service reviews**
- ✔ **Enhance response capability**

Microsoft Solutions Partner

Microsoft Cloud

Bytes are a Microsoft Solutions Partner, holding 6 designations with a very close relationship with Microsoft that allows us to access funding streams that can align to some of the above capabilities.
