

# Bytes Copilot Studio Vision & Value engagements

**Today's workforce faces a fast-paced and demanding digital landscape.** The 2024 Work Trend Index highlights that 78% of users bring their own AI to work, easing the fast-paced demands. However, 60% of leaders are concerned about the lack of a vision for AI implementation. Bytes expertise in Data and AI will help you uncover business use cases and provide you with critical action plans to implement and adopt AI in your organisation using Microsoft Copilot Studio.

With Microsoft **Copilot Studio Vision & Value**, you can:

**Solve business challenges** with intelligent AI assistants that can dynamically query business knowledge and complete workflows

**Drive productivity** by reducing manual processes, allowing employees more time to focus on high-value initiatives

**Reduce overhead costs, risks and time to value** by empowering makers to quickly develop scalable, secure solutions

## Microsoft Copilot Studio Vision & Value engagement
