

Move to Azure with confidence Powered by Bytes

Your journey to the cloud doesn't have to be complex or costly.

At Bytes, we specialise in helping businesses of all sizes transition to Microsoft Azure in a way that's strategic, agile, and aligned to best practices. Whether you're migrating a single workload or modernising your entire infrastructure, we're here to guide you every step of the way.

Azure funding that fits you

Entry to funding is based on the increase to your Azure spend - now even the smallest of projects (as low as £500/month), could be eligible for:

Assessments

Proof of concepts

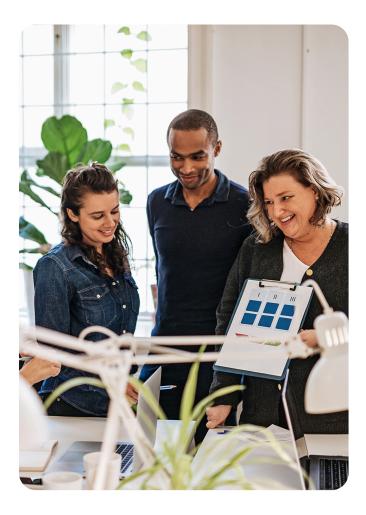

Landing Zone deployment / Environment review

Greenfield, migration & modernisation deployments

Infrastructure credits

We'll help you unlock financial support to reduce migration costs and accelerate your cloud journey, no matter your starting point.

Why Bytes?

With access to Microsoft's Azure Accelerate funding program, we can help you with the costs to scope, plan, and deliver your migration efficiently.

Expert-led planning

Our funded assessments give you full visibility of your current setup and help you plan your move with precision.

Collaborative approach

Bytes Consultancy is designed to ensure you gain full insight into how a solution is being deployed, empowering you to remain in control of your environment. Through close collaboration, we help upskill internal teams and share our expertise, so you stay the masters of your own destiny while leveraging our experience to accelerate success.

Smart cost management

We help you optimise your cloud spend with proactive cost tools and Azure architects.

Continued expert support

As one of Microsoft's leading partners, we offer access to exclusive support and enablement services.

Let's build your Azure future
