

# Bytes Copilot Evaluation Accelerator

Bytes are one of few Jumpstart Accredited Partners across EMEA able to deliver the Copilot Evaluation Accelerator. This is a guided evaluation experience to rapidly assist customers with deploying and realising value from an initial purchase of Copilot for M365 licenses.

## 1. Objectives

- ✓ Engage and train champions on the top value Copilot for M365 Scenarios
- ✓ With the help of champions, activate a set of user cohorts
- ✓ Continue rapid adoption through training sessions and lunch and learns
- ✓ Create next stage business opportunities for Copilot for M365 scenarios

## 2. Outcomes

- ✓ Showcase business value of AI
- ✓ Activate champions community
- ✓ Achieve high user adoption of Copilot for M365 scenarios
- ✓ Build an AI transformation roadmap

## The Engagement consists of three stages

### 1. Get Ready (1 week)

Define scope, identify business stakeholders, Champions, user cohorts; determine success criteria:

- ✓ Review customer pre-engagement questionnaire
- ✓ Conduct pre-engagement kickoff to identify champions, departments and users
- ✓ Establish success metrics

### 2. Onboard and Engage (2 - 4 weeks)

Facilitate onboarding of champions and users with training assets and communication templates

- ✓ Core team kickoff
- ✓ Assign licenses to user cohorts
- ✓ Deliver training to champions
- ✓ Provide Microsoft Copilot Dashboard overview
- ✓ Deliver champion-led training to users (activate at least 2 departments)

### 3. Deliver Impact (2 - 4 weeks)

Implement activities to drive success, review learnings and document next steps to fully adopt Copilot for Microsoft 365

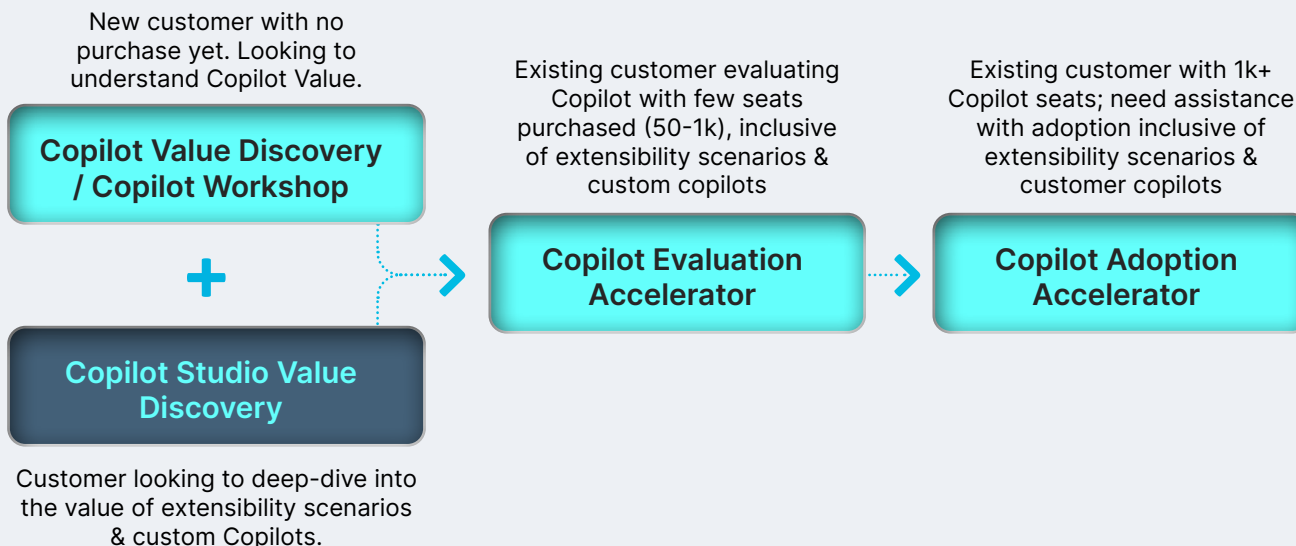

- ✓ Deliver champion-led lunch and learn
- ✓ Customise with Microsoft Copilot Studio
- ✓ Learn how to prompt training
- ✓ Collect and analyse feedback
- ✓ Create business case
- ✓ Prepare and deliver IT and executive readouts
