

## WELCOME TO BYTES

A promotional banner for a summit. The background is a light grey with a faint, stylized image of a stadium. The text is in bold, sans-serif fonts. The main title is in red and black. Below it, a subtitle is in black. At the bottom, there is a red bar with white text and two flags (England and Belgium).

**SECURING YOUR DATA  
DEFENSES SUMMIT**

Rapid Breach Detection, Response & Mitigation

  **INCLUDES a private screening of England v Belgium!**

**Pitch View Rooms,  
Wembley Stadium  
28th June**

A photograph showing a view from the stands of Wembley Stadium, looking down at the pitch. In the foreground, there is a table with a white tablecloth, a glass of water, and a small plate.

-  Fire alarms
-  Emergency Exits
-  Breaks and Refreshments
-  Phones on silent please
-  5 min Q&A at the end of each session
-  Feedback survey

# Who are we?

# The UK's Leading Security Specialist

– Unrivalled  
Insight and  
Quality of  
Services

**Specialism**  
Security our  
Sole Focus for  
16+ Years

**Expertise**  
Accredited  
engineers &  
account  
managers

**Top Tier  
Vendor Status**  
Commercial  
Value &  
Technical  
Delivery

**Unrivalled  
Support**  
No 1st line -  
Escalation  
Engineers on  
Every Call

**In-house  
Consultancy**  
Full Technical  
Services  
Portfolio

**Stability**  
Part of multi-  
billion Bytes-  
Altron Group

# Working with the very best

Our **technology specialists** have close working relationships with **all leading vendors**

# Why are we here today?

You can't defend. You can't prevent. The only thing you can do is detect and respond.

(Bruce Schneier)

izquotes.com

Prevention isn't futile, but detection is critical

# The Breach 'Epidemic' Continues...

Not just the corporates – SME's / public sector also targeted

Known limitations in pure threat prevention

Limited Resources for IT Security Teams

Alert overload, breach detection times high

And we are now in the post-GDPR world...

**May 24 2018** UK: The University of Greenwich fined £120,000 by Information Commissioner for "serious" security breach

Posted by Dissent at 7:52 am Education Sector, Non-U.S., Of Note

“The University of Greenwich has been fined £120,000 by the Information Commissioner following a "serious" security breach involving the personal data of nearly 20,000 people – among them students and staff.

## MOTHERBOARD

### Android App With 10 Million Downloads Left Users' Photos and Audio Messages Exposed to Public

The developers of Drupe, a popular Android app, left its users' data, including selfies and audio messages, on insecure, publicly accessible Amazon cloud servers.
